

XII Mon. February hath xxviii days.

The *Thracian* Infant, entring into Life,
Both Parents mourn for, both receive with Grief:
The *Thracian* Infant snatch'd by Death away,
Both Parents to the Grave with Joy convey.
This, *Greece* and *Rome*, you with Deifion view;
This is meer *Thracian* Ignorance to you:
But if you weigh the Custom you despise,
This *Thracian* Ignorance may reach the wife.

Doris, a Widow, past her Prime,
Her Spouse long dead; her Wailing doubles;
Her real Grievs increase by Time;
What might abate, improves her Troubles.
Those Pangs her prudent Hopes suppress,
Impatient now, she cannot smother,
How should the helpless Woman rest?
One's gone; ---- not can she get another.
